Athens, 26 March 2025

Dear partners,

With this letter, we wish to express our warm thanks for our creative collaboration during the past year.

We thank you wholeheartedly for your participation in the 'Food Rescue & Donation Network' of Boroume and for your practical support of the message 'No food portion wasted'!

Thanks to your contribution and your substantial support to our work, in 2024 we managed to save millions of food portions and provide nutritional support to hundreds of charitable organizations throughout Greece.

Based on Boroume's data and calculation method (500-600 calories = 1 food portion), in total the food you provided in 2024 corresponds to:

17.083 portions

We hope to continue our collaboration in 2025, so that together we can support our fellow humans who experience food insecurity or poverty, while also protecting the environment.

We remain always at your disposal for any information you may need, and we are open to your suggestions in order to improve and expand our cooperation.

With our warmest wishes,

Αλέξανδρος Θεοδωρίδης
